Reference: Call to action for an immediate ceasefire and humanitarian assistance in Gaza

Excellencies,

We, the poets, writers and artists of all nations of the world, are deeply concerned about the barbaric, inhuman and systematic attacks against the people of Palestine in Gaza by the Israeli occupation forces. Media reports and other independent sources have claimed that at least 33,482 Palestinians have been killed and 76,049 injured since October 7, 2023. Women, children, medical providers, journalists and humanitarian workers have been attacked indiscriminately. Houses, hospitals, schools and public spaces are demolished and humanitarian assistance is blocked.

The people of Gaza have become prisoners of their own nation and are deprived of food, water, shelter and health services. They are denied their basic rights to life and dignity. This act is a clear violation of international human rights and humanitarian laws. It is loud and clear that no country and territory can be at peace when the people of Gaza are subjected to brutal war and historical injustices. Although United Nations officials have also repeatedly called for an immediate end to this genocidal war, it is very regrettable that the world's governments have failed to resolve this crisis.

As poets, writers, artists and human beings, who share our common home, planet Earth, we have the collective responsibility to witness this heinous crime against humanity. We strongly condemn the atrocities committed by Israeli forces and call for the right to life and dignity of the Palestinian people to be protected by all means and in all circumstances. We maintain that these conflicts must be resolved through peaceful means and mutual dialogue.

We urge that the inhumanity in Gaza be recognized and that the perpetrators be held accountable. But, as an emergency response, we appeal to Your Excellencies for your positive action to forge an immediate ceasefire agreement between Israel and Gaza, and to mobilize the international mechanisms to provide humanitarian aid to the people of Gaza.

With our warmest wishes.
